Sugar Kane

Sugar Kane

You're perfect in the way, a perfect end today
You're burning out their lights, and burning in their eyes
I love you Sugar Kane, a-comin' from the rain
Oh kiss me like a frog, and turn me into a plane
I love you all the time, I need you here tonight
And I can stay all night, you're bright and shiningAnd I know there's something down there sugar soul
Back to the cross a twisted lane
There's something down there Sugar KaneI'm back again in love, I'm back again a dove
Where'd you get your light, a smilin' sugar life
Another lover's day, another cracked up night
Every night I say, the light is comingAnd I know there's something down there sugar cone
Back to the cross a twisted lane
There's something down there Sugar KaneHey angel come and play, and fly me away
A stroll along the beach, until you're out of time
I love you Sugar Kane, a crack into the dreamI love you Sugar Kane, I love you Sugar Kane
I love you Sugar Kane, I love you Sugar Kane
I love you Sugar Kane, I love you Sugar
