

Taking On the Future

Everest

Reading all the lines to find meaning
For what's in store
Keeping to your self and taking apart
 What's inside
 And knowing this
 This is all you have
 This is all you have
 This is all you have today

Taking on the future to find healing
For what's been done and hating everything
 To place the blame
 Helps no one
 And knowing this
 This is all we have
 This is all we have
 This is all we have today

 And knowing this
 This is all we have
 This is all we have
 This is all we have today
