

The Universal

Blur

This is the next century
Were the universal spree
You can find it anywhere
Yes, the future's been sold Every night we're gone
We sing karaoke songs
How we like to sing along
'Though the words are wrong It really really really could happen
Yes it really really really could happen
When the days they seem to fall through you
Well just let them go No one here is alone
Satellite's in every home
Yes the universal's here
Here for everyone Every paper that you read
Says tomorrow's your lucky day
Well here's your lucky day It really really really could happen
Yes it really really really could happen
When the days they seem to fall through you
Well just let them go Well it really really really could happen
Yes it really really really could happen
When the days they seem to fall through you
Well just let them go Just let them go
Just let them go
