## Quickie

## **Koffee Brown**

Cha Ching, uh strip Ah, ah, ah, Ark!

Ah, ah, Ark! Checkin' my one shortie, checkin' my view

Half past two tell me what we gonna do

You stalin' me, now I wanna blaze it out

I wanna see what it's like let me take it downI wanna dive in your tight thighs, got the right size

Wanna do things till you frame hit the light

Slow flow, no clothes, anything goes

Head to your toes, you know I gotta goGotta let me know, tell is it fo'

Finish up and more and we can hit the floor

Take it to the back, watch the car we at

No matter where we at we can make it happenIt's a quickie, two minute on the spot

It's hot, let me hit it

In the back of the club in my SUV

Anywhere you want, ain't nobody gonna seeIt's a quickie, pants knees high heels and glue sticky

Don't worry, 'cause I know you're gonna feel me

It all will be over in a minute

It's a quickie, babyFirst thing in the day on my lunch break

We gotta slip away gotta meet some place

Half on the room, gotta get back soon

Gotta half an hour but you know what to do Take me, make me scream your name

I can take a lil' pain while you do your thang

Overtime, anytime it really don't matter

Feelin' for your hit, boy give it to me! Gotta let me know, tell is it fo'

Finish up and more and we can hit the floor

Take it to the back, watch the car we at

No matter where we at we can make it happenIt's a quickie, two minute on the spot

It's hot, let me hit it

In the back of the club in my SUV

Anywhere you want, ain't nobody gonna seeIt's a quickie, pants knees high heels and glue sticky

Don't worry, 'cause I know you're gonna feel me

It all will be over in a minute

It's a quickie, babyIt's a quickie, pants knees high heels and glue sticky

Don't worry, 'cause I know you're gonna feel me

It all will be over in a minute

It's a quickie, baby You me, freak me hit me baby

Feeny, you feeny me, can I get a quickie?

Back seat, back street, in the club windows up

Give it up, what what, you know what a player wants You me, freak me hit me baby

Feeny, you feeny me, can I get a quickie? Back seat, back street, in the club windows up

Give it up, what what, you know what a player wantsIt's a quickie, two minute on the spot

It's hot, let me hit it

In the back of the club in my SUV

Anywhere you want, ain't nobody gonna seeIt's a quickie, pants knees high heels and glue sticky Don't worry, 'cause I know you're gonna feel me

It all will be over in a minute

It's a quickie, babyIt's a quickie, pants knees high heels and glue sticky

Don't worry, 'cause I know you're gonna feel me

It all will be over in a minute

It's a quickie, babyIt's a quickie, pants knees high heels and glue sticky

Don't worry, 'cause I know you're gonna feel me

It all will be over in a minute

It's a quickie, baby
