Miniature Tigers

La la la la
Tell me only you
(x3)
La la la laI don't believe in all that superstition
I don't believe a word they say
But when i'm with you
I hear words like forever
I feel the own me slip awayI had a vision of a house I used to live in
Three relationships ago
This time it's different because you understand me
More than anyone I knowOh girl I could never live without you
Believe me, you're just that cool
Oh baby I could never face tomorrow
With anyone else but youOut of my
Out of my
Out of my mind
(x2)Tell me only you
La la la la
(x2)Oh girl I could never live without you
Believe me you're just that cool
Oh baby I could never face tomorrow
With anyone else but youOut of my
Out of my
Out of my mind
(x4)
