Movin' In

Chicago

We know it's hard for you to see
That this is all we want to be
A constant urge within us grows
To do the thing that we proposeWe tried so hard to make the grade
By making music day to day
Although our task is never done
You ought to know it's just begunAnd now it's time for us to say
But most of all we like to play
A song or two that makes you feel
Like all the good in you is realTogether now we've lots to hear
To warm my heart to shed a tear
So come and listen if you choose
And feel a joy you'll never lose
So everybody listen
Yeah
Everybody please give a listen
