

# Little Bit Of Red

Serena Ryder

(Oh ooh)  
Hey you, say you  
Wanna start over again  
Like I ever wanted it  
To be any different  
I've been watching all your colors fade  
To blue Said you'd come back  
Like I wanted you, wanted you  
Stop pretending everything's alright Oh, baby blue, oh baby blue  
C'mere I'm gonna smear another color over you  
Get outta bed you little sleepy head  
Your black and white needs a little bit of red,  
Your black and white needs a little bit of red  
(Oh ooh) Couldn't handle  
Pressure life had put'chu through  
Thought you mighta bit a little more than you could chew  
No, I don't believe it when you say,  
I will make it up to you.  
Said you'd come back,  
Didn't want you to, want you to.  
Still pretending everything's alright Oh, baby blue, oh baby blue  
C'mere I'm gonna smear another color over you  
Get outta bed you little sleepy head  
Your black and white needs a little bit of red,  
Your black and white needs a little bit of red  
Baby blue, baby blue Oh, baby blue, oh baby blue  
C'mere I'm gonna smear another color over you  
Get outta bed you little sleepy head  
Your black and white needs a little bit of red,  
Oh, baby blue, oh baby blue  
C'mere I'm gonna smear another color over you  
Get outta bed you little sleepy head  
Your black and white needs a little bit of red,  
Your black and white needs a little bit of red  
(Oh ooh)
