

# Antidote

## Subi

don't stop, turn that up, take it higher  
tear this mother up, start a riot  
don't stop, turn that up, take it higher  
tear this mother up, start a riot  
there's a glitch inside my system  
rushing through my whole existence  
got me twisted, can't resist this  
something's flipping all my switches  
take'em, breake'em, make'em feel it  
mix it up and mass appeal it  
pressure is riding me hard  
killer dose right to my heart  
and there's no antidote  
and there's no antidote  
and there's no antidote  
and there's no antidote  
there's a glitch inside my system  
rushing through my whole existence  
got me twisted, can't resist this  
something's flipping all my switches  
take'em, breake'em, make'em feel it  
mix it up and mass appeal it  
pressure is riding me hard  
killer dose right to my heart  
and there's no antidote  
and there's no antidote  
and there's no antidote  
and there's no antidote
