Goodbye My Friend

Pop Evil

A lesson, I give you all I had to give you
Wasted so many years of innocence
You burned the bridges, severed the ties
Betrayal within, now I say my goodbyesGoodbye my friend
How did it end inside this living hell we're in
Goodbye my friend
Where do we go from here
I wish you well my friendA lesson, I've been down this road before
You wasted another chance to be something more
Walking misery, a trail of lies
Has come to end, now I say my goodbyesGoodbye my friend
How did it end inside this living hell we're in
Goodbye my friend
Where do we go from here
I wish you well my friendGoodbye my friend
How did it end inside this living hell we're in
Goodbye my friend
Where do we go from here
I wish you well my friendGoodbye my friend
Why did it end
Goodbye my friend
Why did it end
Goodbye my friend
Where do we go from here
I wish you well my friend
