

Show Me

Soundgarden

I woke up in a burning house
I was nailed down to the floor
I looked outside my window
And there is going to be a July snow Show me, show me
Show me the go This guy once said
That the tires only flat on the bottom
But that guy wound up dead
When his girlfriends daddy shot him Show me, show me
Show me the go The leaf that fell the tree
The straw that broke the camels back
My daddy spilled his cup in the river
And that was enough to break the dam Show me, show me
Show me the go
