

Love Help Me

Deep Purple

Vibrant flashes in my mind
Remind me of a foregone time
The blackened faces, broken romance
Blackened facesMy broken heart has bled
With memories of a love that's dead
Sometimes happy then sad
I need love, love help mePassing by the grounds of time
Memories that are only mine
Lookin' for love, a brand new love
Lookin' for loveDreams that are hard to see
Finding a new love for me
Someday she must come along
I need love, love help meI need love to come home
Somewhere there must be oneHoping someday for good news
Waiting for that girl to choose
Only hoping, all I can do
Only hopingOne day she must come along
A girl as pretty as a song
A woman just there for me
I need love, love help meVibrant flashes in my mind
Remind me of a foregone time
The blackened faces, broken romance
Blackened facesMy broken heart has bled
With memories of a love that's dead
Sometimes happy then sad
I need love, love help me
I need love, love help me
I need love, love help me
