

# In The Shadows

## Story Of The Year

We both take the hardest punches  
And collect black eyes just to prove it  
Still we passed by just like strangers  
And we speak just like the closest enemies  
Enemies

Woah, in the shadows of our life  
We can fall into the night unscarred  
Woah, in the shadows of our life  
We can never let it go this far  
Somehow my words rendered useless  
Still I pull my lip down to my chest  
Just to show you how my jaw is  
Tired from waiting to say the things that you should hear  
You should hear

Woah, in the shadows of our life  
We can fall into the night unscarred  
Woah, in the shadows of our life  
We can never let it go this far  
After all we're still the same  
These empty promises seem to never change  
There's a smile on my face and it's 2:55 a.m.  
This cramp in my wrist puts me back asleep  
Till it all comes around again  
With a closed fist  
With a closed fist  
With a closed fist  
With a closed fist

Woah, in the shadows of our life  
We can fall into the night unscarred  
Woah, in the shadows of our life  
We can never let it go this far  
Woah, in the shadows of our life  
We can fall into the night unscarred
