Keep Awake

100 Monkeys

I will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awakeKeep your left eye open and your right toe twitchin'
Cause I'm in the kitchen
With a knife that's itchin' for your red blood
On those white sheetsSo keep your left eye open and your right toe twitchin'
Cause I'm in the kitchen
With a knife that's itchin' for your red blood
On those white sheetsI will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awakeKeep your left eye open and your right toe twitchin'
Cause I'm in the kitchen
With a knife that's itchin' for your red blood
On those white sheetsSo keep your left eye open and your right toe twitchin'
Cause I'm in the kitchen
With a knife that's itchin' for your red blood
On those white sheetsI will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awake
I will kill you in your sleep
So you better try, try and keep awakeI will kill you in your sleep
So you better try
Try and keep awake
