

# Keep Awake

## 100 Monkeys

I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
Cause I'm in the kitchen  
With a knife that's itchin' for your red blood  
On those white sheetsSo keep your left eye open and your right toe twitchin'  
Cause I'm in the kitchen  
With a knife that's itchin' for your red blood  
On those white sheetsI will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
Cause I'm in the kitchen  
With a knife that's itchin' for your red blood  
On those white sheetsSo keep your left eye open and your right toe twitchin'  
Cause I'm in the kitchen  
With a knife that's itchin' for your red blood  
On those white sheetsI will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
I will kill you in your sleep  
So you better try, try and keep awake  
So you better try  
Try and keep awake
