

Wicked Gil

Band of Horses

Hey do you really know
Hate you because
Go tippy toe
And shut off the world
Shut off to all, you ghost I barely told a lie
And waited to reply
Now go for a while
Shut off the world
Shut off to all
I'm yours
I'm yours Helping evil people to say things they should
And say once before
I know evil people who say things
They don't know I begged Gil really, why
Stay through the night
I'm here for a while
Shut off to the world
Shut off to all
I'm yours
I'm yours Helping evil people to say things they should
And say once before
I know evil people who say things
They don't know
Oh why do I even care
It's nothing now
