

# Those Who Can't, Cheat

## Clarence Clarity

The Universe unfolds: Out the gate,  
Best take me out the game  
Think I'd best -  
Take two cos I get blue,  
Cos I want to...Alpha male  
And I'll fight tooth and nail  
For nothing-  
I'll slip through,  
And affect you  
Cos I have to...Can I get a witness:  
Oops I forgot my sickness  
Oops you forgot your lipstick luck again...  
And who's with us?  
We're flies at the reptile party  
Oops you forgot your lipstick luck again...In my leagues of hate  
I'll tick me off the page  
A shakedown  
One word, and you'll slip through  
And resent you And I am the girl  
As far as I can tell  
And I'm tripping  
Too deep  
Down my own hole  
At the death knoll Can I get a witness:  
Oops I forgot my sickness  
Oops you forgot your lipstick luck again...  
And who's with us?  
We're flies at the reptile party  
Oops you forgot your lipstick luck again...Trust us, we're the thorns in your crown-  
Court jesters.  
But the lines in the skies infest us.  
And the crimes in the rhymes of the U.S  
Ask the weapons inspectors. Out the gate,  
I'll take me out the game  
Think I could -  
Fool you, cos I have to  
And I want to...Go girl, get made  
And I'll park the Chevrolet  
And we'll spark the black hearts

In the theme park.  
Till it gets dark.Can I get a witness:  
Oops I forgot my sickness  
Oops you forgot your lipstick luck again...  
And who's with us?  
We're flies at the reptile party  
Oops you forgot your lipstick luck again...Can I get a witness:  
Oops I forgot my sickness  
Seems you forgot your lip-synced lark again...  
And who's with us?  
We're the life of the reptile party  
Oops you forgot your lipstick luck again...
