So In Love

Before Their Eyes

I've got this mic
and a way with words
you've got those moves
and yeah, you're so sure
it's always nice to be the center of attention
it must be hard when i'm here
and did i mention?

we are here to stay
so you better just
watch what you say

whoa you don't
know just how it feels
to be the one
everybody's got their eyes on
so in love

whoa you don't
know just how it feels
to be the one
everybody's got their eyes on
so in love

and when the lights start dimming
you'll be asking me
to make this room stop spinnin' for ya

and let me offer my apologies
i'm only sorry that you can't stop calling me
'cause you make it such a chore
and i don't even know
what you're waiting for

i only good at what i do because i always keep you wanting more

whoa you don't
know just how it feels
to be the one
everybody's got their eyes on

so in love

whoa you don't
know just how it feels
to be the one
everybody's got their eyes on
so in love

are you the one everybody's got their eyes on?
are you the one everybody's got their eyes on?

i've got this mic and a way with words
(we are here to stay)
you've got those moves and yeah, you're so sure
it's always nice to be the center of attention
(we are here to stay)
ain't it nice to be the center of attention?

now you know just how it feels to be the center of attention
(center of attention)
now you know just how it feels to be the center of attention

whoa they don't
know just how it feels
to be the one
everybody's got their eyes on
so in love

whoa they don't
know just how it feels
to be the one
everybody's got their eyes on
so in love

it's always nice to be the center of attention
