Send a Text

Jarlin Pink

1st verse

when I'm alone in my room
i think about you
we fell in love it was so soon
its profound that i found you
the bond we made
the times we laid
you change night into day
when i see your face
the love we create
is only a message away

chorus

if your available
send a lil text to me
and girl every place i go
i need you right next to me
i need your near my soul
if your available
send a lil text to me
girl every place i go
i need you right next to me
i need you near my soul

2nd verse

when your picture hit my phone
girl a feeling super strong takes over me
you giving me chills in that gown
and that thing makes me shout
cause it so for real
i could lay away for days with you baby
im lost in your eyes when i take a gaze
don't let time slip away not a minute to waste
i hope a message is on the way

chorus

bridge

nine eight five
three six o
eighty seven freak code
text me sext me either both
you know what I'm feenin for
when i hear that chime i feel your love a million miles away
and if the text don't make it through
you still should know that i love you
cause with a text you lift my heart to heaven

chorus
