

Eye of the Storm

Bullet for My Valentine

Can you hear the thunder?
Can you feel the raining force?
Melt down all your windows
That barricade the doorsMother nature's fury
Takes you by the hand
Showing all but mercy
Wrecking death upon the land, goCaught in the eye of the storm
Did the heaven just open and fall?
We are caught in the eye of the storm
All that's left are just bodies to mournCan you see the lightning?
Can you feel the winded source?
Pack up your belongings
Let chaos take controlMother nature's fury
Takes you by the hand
Rip this world to pieces
Bid farewell to all you know, goCaught in the eye of the storm
Did the heaven just open and fall?
We are caught in the eye of the storm
All that's left are just bodies to mourn, yeahCaught in the eye of the storm
Caught in the eye of the stormCan you hear the thunder?
Can you feel the raining force?
Melt down all your windows
That barricade the doorsMother nature's fury
Takes you by the hand
Showing all but mercy
Wrecking death upon the land, goCaught in the eye of the storm
Did the heaven just open and fall?
We are caught in the eye of the storm
All that's left are just bodies to mourn, to mourn
