

Reasons to Live

DragonForce

Once again I'm here alone, my secret life will waste me
Still a thousand miles away from the land of broken dreams
Night falls and the stream is shining, false deception behind the lies
Hours wasted endlessly on time and time again Try to understand
Desperately alive with a dream in my hand
Will you wait alone for me tonight?
Hold me, save me Star shines in all of us, we'll search for all our lives
One day we'll find the way and the reason to survive
Cry for the day to return like no one can understand
We all face our fears in the world
We all hold our place in the universe for eternity Hide the lies, deceive myself, erase the past from my space
Images of loneliness and fall across the land
Once sure but my eyes are blinded, fate detached for a place to hide
Lost generations of ours, ancient light returns Can you see the lies
Taken away by the blackening skies?
Won't you wait alone again tonight?
Save me, take me Star shines in all of us, we'll search for all our lives
One day we'll find the way and the reason to survive
Cry for the day to return like no one can understand
We all face our fears in the world
We all hold our place in the universe for eternity Try to understand
Desperately alive with a dream in my hand
Will you wait alone for me tonight?
Hold me, save me Star shines in all of us, we'll search for all our lives
One day we'll find the way and the reason to survive
Cry for the day to return like no one can understand
Our past lives return to us all, our memories will fly free forever
So far from the cries of the world for eternity
