

Smile

Andrea M

Smile

(c) Andrea M

I could wish you riches
Or I could wish you pearls
I could wish you handsome men
Or beautiful girls
But what I really want for you
Is out of this world
I wish you Smiles
When no-one else is around

I could wish you up a life avoiding sticks and stones
But what I wish is passion you can feel deep in your bones
That everywhere you go in life,
you'll always feel at home

And that you Smile
When no-one else is around

What I want for you
I wish it to be true
That you would be so happy
Only being with yourself
What I want for you
I wish it to be true
That you'll believe this life is sweet
And Smile to yourself
Smile when no one else is around

I could wish you up a life devoid of pain and hurt
But what I really want's a life of plenty lessons learned
So you can hold your head up high
Through any kind of dirt

And you will Smile
When no-one else is around

What I want for you
I wish it to be true

That you would be so happy
Only being with yourself
What I want for you
I wish it to be true
That you'll believe this life is sweet
And Smile to yourself
Smile when no one else is around

-Whistle-

I could wish you riches
Or I could wish you pearls
I could wish you handsome men
Or beautiful girls
But what I really want for you
Is out of this world
I wish you Smiles

And to yourself, At everyone, At everything
And through it all, Through anything, To everyone,
Through everything, And all alone
You will Smile
When no one else is around.
