City Song

[unknown]

It was that night at nowhere
I saw you standing there
Darlin' you were hungry for life
An innocent in this landWhat is it about this city
That brings us all to life
Ten millions souls vibrating
They're shimmering in the nightYou mustn't think of staying
The price is more than you'd think
It's giving up the sweetest part of you
For this heartless prizeWhen does a vision of Heaven
Become a living Hell
Ten million souls vibrating
They're acting it out for realWhere do all the lonely people go
When they want some lovin'
Where do all the lonely people hide
When they feel like cryin'It was that night at nowhere
A cold glass in your hand
Darlin', you were angry with life
A prisoner in this landWhat is it about this city
That brings us all to life
Ten millions souls vibrating
They're shimmering in the nightWhere do all the lonely people go
When they want some lovin'
Where do all the lonely people hide
When they feel like cryin'Where do all the lonely people go
In this crowded city
Where do all the lonely people hide
There's no sanctuaryNowhere to run to, nowhere to hide
Nowhere to handshake, nowhere to smile
Won't you talk with me
Spend some time and give me lifeWhen does a vision of Heaven
Become a living Hell
Ten million souls vibrating
They're shimmering in the nightWhere do all the lonely people go
In this crowded city
Where do all the lonely people hide
There's no sanctuaryA vision of Heaven
A vision of Heaven
In this crowded city

A vision of Heaven
A vision of Heaven
There's no sanctuaryA vision of Heaven
A vision of Heaven
In this crowded city
A vision of Heaven
A vision of Heaven
There's no sanctuaryA vision of Heaven
A vision of Heaven
In this crowded city
A vision of Heaven
A vision of Heaven
There's no sanctuary
