Pay Any Price

The Transplants

Go, Transplants won't forget it
Past debit is will to test it
Beat down, won't regret it
Only when I can, I can accept itAnd I speak for the one's who've been kicked hard
'Cause I know what's it's like to be discard and uh
Pushed down and beaten hard and when the times are rough
I'm gonna go step hardPay any price, pay any verdict
Transplants gonna take it on, that is for certainSee, see the devil smile, feed the devils child
Pray to Jesus but you've laid it down for a low, low while
Trouble, trouble ways, in a constant maze
It's killafornia, so that's why I'm in a constant hazeSome are born to ride, I seem to wonder why
These sons of bitches still alive and all my home boys die
Can some change the past, I can take it back
Well, I'd like to live what chance to die I gotta make it crackPay any price, pay any verdict
Transplants gonna take it on, that is for certainYou, you might lose you might win, you, you might finish or just begin
She, she's stretching the back so bend that bitch is lying again
Intellectual vindication, low minded sophistication
Imparity is my equation, you're gonna get my evaluationPay any price, pay any verdict
Transplants gonna take it on, that is for certain
