

# Getting Better

[Geri Halliwell](#)

Are you ready?  
Come on, cut it out  
You need a little therapy, come on let's go  
Do you feel like somethings missing  
Treading water in the sea of life  
Can you deal with what you really feel  
Cos we all need some peace of mind  
I need connection  
Can't stop reflection  
I need to find some inspiration  
So help me if you can  
Let's keep it together  
You're making me better now  
I'm taking forever  
To get you out of my mind  
You're making me crazy  
Are you looking to save me now  
I'm ready yeah baby  
Cos we're getting better all of the time  
Do you feel so disconnected  
That you're life has lost it's soul  
Racin' round ----- spinning wheel  
So let's break out and lose control  
I want attention  
But not correction  
You could be my inspiration  
So help me if you can  
Let's keep it together  
You're making me better now  
I'm taking forever  
To get you out of my mind  
You're making me crazy  
Are you looking to save me now  
I'm ready yeah baby  
Cos we're getting better all of the time  
You're making me crazy  
Are you looking to save me now  
I'm ready yeah baby  
Cos we're getting better all of the time  
I need a cure now baby  
I need a remedy  
I'm getting better  
You could be my therapy  
I need a cure now baby  
I need a remedy  
I'm getting better  
Getting better all of the time  
Let's keep it together

You're making me better now  
I'm taking forever  
To get you out of my mind  
You're making me crazy  
Are you looking to save me now  
I'm ready yeah baby  
Cos we're getting better all of the time  
Got you a deal, looks are right  
Diet, straight, get a life  
Sex, money, lives for car  
Friends, nights, I'll be your star  
Love, light, but not some hate  
Money matters, big mistake  
Got you a deal, looks are right  
Getting better all of the time  
Sex, money, lives for car  
Friends, nights, I'll be your star  
Love, light, but not some hate  
Money matters, big mistake  
Got you a deal, looks are right  
Diet, straight, get a life  
Sex, money, lives for car (I'm ready yeah baby)  
Cos we're getting better all of the time
