

Moonshine (The Futuristics Remix)

Bruno Mars

Hello

You know you look even better than the way you did now before
And the moment that you kissed my lips you know I started to feel wonderful

It's something incredible, there's sex in your chemicals

Oh, let's go

You're the best way I know to escape the extraordinary
This world ain't for you, and I know for damn sure this world ain't for me

Lift off and say goodbye

Just let your fire set me free Moonshine, take us to the stars tonight

Take us to that special place

That place we went the last time, the last time I know, I was with you last night but it feels like it's been so long

And everybody that's around they know that I'm not myself when you gone

It's good to see you again, good to see you again

On top of the world, is where I stand when you're back in my life

Life's not so bad when you're way up this high

Everything is alright, everything is alright Moonshine, take us to the stars tonight

Take us to that special place

That place we went the last time, the last time, oh Moonshine, your love it makes me come alive

Take us to that special place

That place we went the last time, the last time Tu-ru-tu don't you never look back

We are not afraid to die young and live fast

Give me good times, give me love, give me laughs

Let's take a ride to the sky before the night is gone Moonshine, take us to the stars tonight

Take us to that special place

That place we went the last time, the last time, oh Moonshine, your love it makes me come alive

Take us to that special place

That place we went the last time, the last time
