

Someday Soon

Journey

Someday soon
Someday soon
Seasons were made for the change
You will be there
Just like the night to the day
Without a care
The dark goes before the dawn
Open up your eyes
Someday soon
Ooo, there'll be a better day
And someday soon
Yes, it's not too far away
Someday soon
Ooo yeah, with open skies
And someday soon
All we can do is try
The cloudiest day comes around
You will be there
All of the feelin's you've found
Without a care
So my friends, you take a look
Don't you look too far
Someday soon
Ooo yeah, with open skies
And someday soon
All we can do is try
Someday, someday
Someday soon
Someday, someday soon
Someday, someday soon
Someday soon
Someday soon
Someday soon
Someday soon
