Six O'Clock

Faktion

Six o'clock and I'll be ready
Lesson learned, my hands are steady
One more day and I'll be home
Living with regret of what I've doneHow could I waste what we have on her?
We can't go out that wayI go to sleep by your side
Almost every night
I crave the feeling of your skin
As it presses against mineNow that I'm so far from home
I know, you're sleeping alone
You're hoping that I remember
What you mean to meI've always known
Where I was heading
Forgetting the fact that
You're not readyIt's six o'clock
I'm all alone
Missing all I've
Left at homeHow could I waste what we have on her?
We can't go out that wayI go to sleep by your side
Almost every night
I crave the feeling of your skin
As it presses against mineNow that I'm so far from home
I know, you're sleeping alone
You're hoping that I remember
What you mean to me
Mean to meI'm lost without youI go to sleep by your side
Almost every night
I crave the feeling of your skin
As it presses against mineNow that I'm so far from home
I know, you're sleeping alone
You're hoping that I remember
What you mean to me
(Now that I'm so far from home)(I know, you're sleeping alone)
You've been everything to me
(You're hoping that I remember)
Everything to me
