

Headful of Ghosts

Bush

I stand around at American weddings
I stand around for family
At my best when I'm terrorist inside
At my best when it's all me I was there when they took all the people
I was alone in a mental ravine
You breathe life when you break the walls down
You breathe life when you set me free Where is my head? Where are my bones?
Why are my days so far from home?
Where is my head? Where are my bones?
Can you save me from myself?
Can you save me from myself? Free-thinking renegade social
Mister Moon Man now
In the slipstream of my possibilities
Got the boat so we don't drown These are the days that I'm split down the middle
No words to calm me down
Be sure that what you dream of
Won't come to hunt you down Where is my head? Where are my bones?
Why are my days so far from home?
Ghost man
Where is my head? Where are my bones?
How come we get so lost?
Ghost man Where is my head? Where are my bones?
Can you save me from myself?
Can you save me from myself? I stand around at American weddings
I stand around for family
At my best when I'm terrorist inside
At my best when it's all me Ghost man
How come we get so lost?
Ghost man Where is my head? Where are my bones?
Can you save me from myself?
Can you save me from myself? Where is my head? Where are my bones?
Can you save me from myself? Where is my head? Where are my bones?
Where is my head? Where are my bones?
Where is my head? Where are my bones?
