One With Eternity

Centinex

Undress the cold northern wind
Carry the strenght through bloodred waters
Feel the gloom of a cosmic universe
A moment of silence and nothingnessThe mystery of a dying fire
Gaze into the astral skies
The sun has passed away
Unite the present with eternityEmbraced by the neverending doom
Desires desolated by the claws of time
Like a gateway to a timeless sphere
A passion for the eternal eternityThe mystery of a dying fire
Gaze into the astral skies
The sun has passed away
Unite the present with eternityReduced to ashes - Onward into the pleasuring chaos
The dynasty of demonwings - The grimness, the creation of crueltyThis is the end
Let the kingdom sink
Released for all to see
Tormented inner dreamsUndress the cold northern wind
Carry the strenght through bloodred waters
Feel the gloom of a cosmic universe
A moment of silence and nothingnessThe mystery of a dying fire
Gaze into the astral skies
The sun has passed away
Unite the present with eternity
