

Run

Rex Goudie

We're just two people
Riding in circle that's spinning around
Just everyday people
Searching for something we've already found And I'm just a guy
Who's in love with a girl
Not in front of me now you're so far away
And I need you right here in my arms Baby, just run take a bus, take a plane, take a train
Baby, just run, run as fast as you can
Girl you'll find your way back
'Cause no matter wherever you are
There's no place on this earth that's so far, run We're just two people
Wishing that we were together tonight
Just everyday people
Trying to make sense of this puzzle called life And I'm just a guy
Who's in love with a girl
Not in front of me now you're so far away
And I need you right here in my arms So baby, just run take a bus, take a plane, take a train
Baby, just run, run as fast as you can
Girl you'll find your way back
'Cause no matter wherever you are
There's no place on this earth that's so far, run Sooner or later it's over
Passing you by and it's gone
There's Not enough time left to wonder
If you're where you belong Take a bus, take a plane, take a train
So baby just run
Take a bus, take a plane, take a train Baby, just run, run as fast as you can
Girl you'll find your way back
'Cause no matter wherever you are
There's no place on this earth that's so far, run
