

nightflight

Hacienda

Verse 1

Dark is the night, frightful silence around

Only the moonlight shining, there's not a soundI'm not afraid 'cause you're here by my side

You'll be my shelter and hold me so tightBridge

I have every trust in you

There is nothing I won't doRefrain

Oh, take me on a nightflight, nightflight, nightflight

The others fall asleep

and we fly awayOh, take me on a nightflight, nightflight, nightflight

We fly through the night

'Til we meet the dayVerse 2

Up and away, oh baby, right in the night

Never been flying so high as a kiteThis night I'm havin' the time of my life

It's so exciting, we're higher than highBridge

I won't need no sleep tonight

Never stop it feels so right
