

# Tangled Up

Billy Currington

Touch me, tell me what you want me to do  
I want to take a little trip around you  
You set me on fire  
Ohh, you set me on fire Lock me up inside of this room  
I just wanna be close to you  
I cant take it anymore  
Baby, I want you so much I wanna feel your breath on my skin  
To find that place weve never been  
I wanna spend all night tangled up in your love Kiss me, kiss me till the sun comes up  
Slow, sweet, I can never get enough of your love  
Youre taking me higher  
Ohh, youre taking me higher Yeah, lock me up inside of this room  
I just wanna be close to you  
I cant take it anymore  
Baby, I want you so much I wanna feel your breath on my skin  
To find that place weve never been  
I wanna spend all night tangled up in your love, yeah Yeah, lock me up inside of this room  
I just wanna be close to you  
I cant take it anymore  
Baby, I want you so much I wanna feel your breath on my skin  
To find that place weve never been  
I wanna spend all night tangled up in your love Tangled up in your love  
Tangled up in your love Tangled up in your bed  
Tangled up in your sheets  
Tangled up in your head  
Tangled up in your love  
Tangled up in your love, yeah
