Last Train

John Holt

Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on

I need to make the proper connection
To get my popper injection
My customs infection
So I can proceed in the right direction
I need to ride, ride, ride, ride

Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on

Sunshine or rain, pleasure or pain
Release my stress, release my pain
Don't want it simple, don't want to plane
I want some men in there on a frame

Bring on the wreck, bring on the chamb'
You've got me waitin', waitin' in vain
Don't make me wait
Please don't make me wait

You get the jab on the boys on a play
We know to lay, it's time to slave
Side to side, ready for the ride
Up and down, swing its around

Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on

Are u the conductor ?
Be my instructor
Simple and plane, show me the train

Can I please get on the last train

Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on
Get get up, get get on

Can I please get on the last train
