

Temptation (feat. Erik Hassle)

Bondax

Show me slowly, now that all fuckers
Falling free, now you see
Feel the walls closing
Don't reach, no need
Keep this unspoken
Part of me, and you
Keep this unspoken

Oh, I know you want me, but I want you more
Something in between us that I can't ignore
Sirens calling, coming after me
Chasing, giving in
Wanna feel something

Oh, I know you want me, but I want you more
So much get between us that we can't ignore
Uh-uuh uh uh-uh, temptation say my name
With every step I take
Uh-uuh uh uh-uh, temptation walking away

'Cause I could never let you stay Weightless fading, maybe you're my beautiful one
I've been saving just so I can see it all
It's on me, it's on you, got my back against the wall
Hold it, pushing me but I came for

Oh, I know you want me, but I want you more
Something in between us that I can't ignore
Sirens calling, coming after me
Chasing, giving in
Wanna feel something

Oh, I know you want me, but I want you more
So much get between us that we can't ignore
Uh-uuh uh uh-uh, temptation say my name
With every step I take
Uh-uuh uh uh-uh, temptation walking away

'Cause I could never let you stay
Uh-uuh uh uh-uh, temptation say my name
With every step I take
Uh-uuh uh uh-uh, temptation walking away
'Cause I could never let you stay
