

Freedom Fry

I'm in my prime,
 It's a time that I'll never forget,
 Come and stand by my side, Those pretty girls,
 With the pearls and the leather jackets,
 Take a toll on my pride, Not a saint, Got a song,
 I'm just rolling along,
 Not a doubt in my mind, Keep on playing till we're gone,
 In this scene we become,
 Got a chain to break up, Doesn't matter when you're 21,
 Live and make love,
 On our way up,
 I wont ever do you wrong,
 When the day comes,
 We will stand up,
 We will stand up, I'm on a rise,
 Hypnotized, and it ain't over yet,
 I'm eclipse, you're the sky, Give it a whirl,
 Round the world, it's as good as it gets,
 Come on over tonight, Not a saint, Got a song,
 I'm just rolling along,
 Not a doubt in my mind, Keep on playing till we're gone,
 In this scene we become,
 Got a chain to break up, Doesn't matter when you're 21,
 Live and make love,
 On our way up,
 I wont ever do you wrong,
 When the day comes,
 We will stand up,
 We will stand up,
 We will stand up, We've got light,
 We've got light even in the darkness,
 We're at the ending and the start, We are,
 We've got light,
 We've got light even in the darkness,
 We are the ending and the start, We are, Doesn't matter when you're 21,
 Live and make love,
 On our way up,
 I wont ever do you wrong,
 When the day comes,

We will stand up,
We will stand up,Doesn't matter when you're 21,
Live and make love,
On our way up,
I wont ever do you wrong,
When the day comes,
We will stand up,
We will stand up,
We will stand up,
We will stand up.
