

# The Winter Song

Eisley

Walking home with the snow it is falling down  
Passing by lit windows the people inside they wave from the glow  
Chimney smoke billowing  
Snowflakes on my lashes  
Oh the starry night  
I was walking and singing this songLa la la la la la la la  
La la la la la la la la la laWalking home with the snow it is falling down  
Passing by lit windows the people inside they wave from the glow  
Chimney smoke billowing  
Snowflakes on my lashes  
Oh the starry night  
I was walking and singing this song  
Sing alongLa la la la la la la la  
La la la la la la la la la la  
La la la la la la la la  
La la la la la la la la la laIt's that day again  
It's that time of yearWith our smiling faces  
We will sing with cheer  
La la la la la la la la la la la la  
La la la la la la la la la la la la la la
