No Turning Back

Abra Moore

Silvery moon do a dance for me
Could you make me feel like this was meant to be
Could you make me feel at home wherever I stand
Cause once you crossed over there's no turning backAll this river shivers in the cold tonight
and I stand almost frozen under the neon light
take my hand walk me down by the riverside
cause once you crossed over there's no turning backWithout a trace, without a sign
Without a name, without even a dime
Would I believe it to be true for I must follow through,
Even if it means that I believe in youAll this deja vu makes me feel all right
like I'm right on schedule
even though sometimes I get tied
but i wont be afraid when i see the morning light
cause once u crossed over there's no turning back
