

# You Again

[Kate Havnevik](#)

I can't go anywhere  
Without feeling strange  
I can't see anyone  
Everything has changed  
'Cause every time I close my eyes  
It's you again, you again  
And every time I hear your voice  
I don't know what to do with myself  
You, you, you  
Tum time, valentine  
Waiting for my chance  
Easy chat up lines  
But do you dare to dance?  
'Cause every time I close my eyes  
It's you again, you again  
And every time I hear your voice  
I don't know what to do with myself  
You, you, you  
Don't know what to do with myself  
You, you, you  
Don't know what to do with myself  
Die, apart or die  
Die, am I  
Die, apart or die  
Do I for my  
'Cause every time I close my eyes  
It's you again, you again  
And every time I hear your voice  
I don't know what to do with myself  
Don't know what to do with myself  
I don't know what to do with myself
