

You're An Original

Sheryl Crow

Give us what you got girl you got a lot
Seems you got an itch that's scratchin'
Lay it like it plays, play it like it lays
All your Easter eggs are hatchin' In your Cadillac reachin' for your jack
There's nothin' we can tell you
Just a little queen, dirty mouth and mean
There's nothin' we can sell you You're an original baby
Like we've never seen before
You're an original baby
Turn around and you're lookin' at a hundred more, yea Deadly in the sack, groovin' to the clash
On some kind of wasted weekend
Pretty little girl, expensive little world
Curiosity is peekin' Here today and gone by mornin'
Your ice cream cone is melting fast
Maybe Monday, maybe someday
Your lucky star won't fly on past You're an original baby
Like we've never seen before
You're an original baby
Turn around and you're lookin' at a hundred more You're an original baby
Like we've never seen before
You're an original baby
Turn around and you're lookin' at a hundred more
(Turn around and you're lookin' at a hundred more)
Turn around and you're lookin' at a hundred more
(Ohh oh)
(Turn around and you're lookin' at a hundred more) Caught you in a pose that everybody knows
We thought you had somethin' special You're an original baby
Like we've never seen before
You're an original baby
Turn around, turn around, ohh You're an original baby
Like we've never seen before
(Like we've never seen before)
You're an original baby
Look out baby, turn around yea You're an original baby
Like we've never seen before
You're an original baby
Turn around, turn around, turn around You're an original baby
Like we've never seen before
You're an original baby
