

Alive

Hedley

Kinda feel like a miracle
I can be so cynical, no more
Life can seem too typical, too digital
Lord I don't wanna be so invisible Staying alive, hey, whatever it takes
Whenever it feels alright
Staying alive, oh, wherever I go
Whatever I do tonight
Staying alive, hey, whatever it takes
Whenever it feels alright
Staying alive, oh, wherever I go Like it's do or die
Like you just can't wait
Like a big blue sky on a summer day
Take me up so high where I wanna stay
Staying alive
Hey, whatever it takes
Whenever it feels alright
Like a first romance on an ocean wave
It's your very last chance
It's a leap of faith
Take me up so high when I wanna stay
Staying alive
Oh, wherever I go
Whatever I do tonight, oh Love is sound and the visuals
Love a crowd of originals
Oh no, I love it now
Physical, so physical
Lord I don't wanna be so invisible Staying alive, hey, whatever it takes
Whenever it feels alright
Staying alive, oh, wherever I go
Whatever I do tonight
Staying alive, hey, whatever it takes
Whenever it feels alright
Staying alive, oh, wherever I go Like it's do or die
Like you just can't wait
Like a big blue sky on a summer day
Take me up so high where I wanna stay
Staying alive, hey, whatever it takes
Whenever it feels alright
Like a first romance on an ocean wave

It's your very last chance
It's a leap of faith
Take me up so high when I wanna stay
Staying alive, oh, wherever I go
Whatever I do tonight, ohI, I don't wanna be so invisible
Mmm yeah I don't wanna be so invisibleLike it's do or die
Like you just can't wait
Like a big blue sky on a summer day
Take me up so high where I wanna stay
Staying alive, hey, whatever it takes
Whenever it feels alright
Like a first romance on an ocean wave
It's your very last chance
It's a leap of faith
Take me up so high when I wanna stay
Staying alive, oh, wherever I go
Whatever I do tonight, ohWhatever I do tonight
Whatever I do tonight
