

What's Next to the Moon

AC/DC

Well I tied my baby to the railroad track
Cannonball down the line
Givin' that woman just one more chance
Give it to here one more time
Engineer wishin' he was home in bed
Dreamin' about Casey Jones
Wide-eyed woman half a mile ahead
Thinkin' about broken bonesPRE-CHORUS:
It's your love that I want
It's your love that I need
It's your love got to have
It's your loveHeavenly body flyin' across the sky
Superman was outta town
Come on Honey
Gotta change your tune
Cause it's a long way down
Dropped in lookin' for a free ride
Think about Lois Lane
It's a bird
It's a plane
It's suicide
And that'd be a shamePRE-CHORUS:CHORUS:
What's next to the moonLEAD
Long arm law lookin' for a fingerprint
Tryin' to find a mystery clue
Hittin' me with the third degree
Workin' on the thumbscrew alright
Alright officer I confess
Everything's comin' back
I didn't mean to hurt that woman of mine
It was a heart attack
It's your love that I want
It's your love that I need
It's your love got to have
It's your love guaranteed
Love that I want
It's your love that I need
It's your love got to have

It's your love
