## Spark Gap

Activation switch on,  
Life starts as programmed.  
Congratulations, it runs ok but turn it this way.  
Construction, progression of life,  
I say self-destruction.  
One option, salvation.  
You can pull the reset button.

Low sweet death,  
My favorite nowhere to my worst horizon.  
Drown but hold my breath,  
I build my own destruction.  
Run aground, I'm living today, I'm living to die.  
Listen to the sound, from the ground.  
Low sweet death.

The ground I see,  
I'm on top on the lowest level.  
I've found my feet.  
All the people look ugly to me.  
Paranoid, overjoyed, they all know it's obsessive.  
Please, please, please let us leave.  
Damn every place I go is so oppressive.

Low sweet death,  
My favorite nowhere to my worst horizon.  
Drown but hold my breath,  
I build my own destruction.  
Run aground, I'm living today, I'm living to die.  
Listen to the sound, from the ground.  
Low sweet death.

Low sweet death,  
My favorite nowhere to my worst horizon.  
Drown but hold my breath,  
I build my own destruction.  
Run aground, I'm living today, I'm living to die.  
Listen to the sound, from the ground.  
Low sweet death.
