

# Under the Sun

## The Bridges

You can try to make this better  
You can lie and make this better  
You rely on every reason under the sun  
Just try for fun You could live to where there's weather  
You could love me, if you'd rather  
Still I'd like to have tricked you  
If stowaways make use of days Still, you fall in and out of love like this  
When you know everyone's afraid of that  
If I know you better than you let on  
You'll drown the sun You can read my heart and travel  
Isn't that how love unravels  
Is it true you keep your word for the company  
In spite of me Far away you're like a treasure  
Here's a kiss just for good measure  
Still I'd have liked to see you  
If stowaways make light of days Dear, you fall in and out of love like this  
When you know everyone's afraid of that  
If I know you better than you let on  
You'll drown the sun Just like you'd promised you would come  
I found a lover on the Rhine  
Ohh... You can try to make this better  
You can lie and make this better  
You rely on every reason under the sun  
Just try for fun Still, you fall in and out of love like this  
When you know everyone's afraid of that  
If I know you better than you let on  
You'll drown the sun You fall, you fall, you fall, you fall  
You fall, you fall, you fall, you fall  
You fall in and out of love like this  
When you know everyone's afraid of that  
If I know you better than you let on  
You'll drown the sun Drown the sun
