

Everybody's Got Somebody But Me (f/Jason Mraz)

Hunter Hayes

I wish the couple on the corner would just get a room
Seems like everyone around me is on their honey moon
I'd love to take a pin to a heart shaped balloon
Everybody's got somebody but me I don't know how I landed on this movie set
It's like a casting call for 'Romeo and Juliet'
I never would have noticed if we'd never met
But everybody's got somebody but me And I miss you
Without you I just don't fit in
I know we're through
But I'm wishing we could try it again I hear loves songs playing on the radio
People slow dancing everywhere I go
I'm a good slow dancer but you'd never know
'Cause everybody's got somebody but me
Yeah they do Everybody
Got somebody but me (got somebody) And I miss you
Without you I don't fit in
I know we're through
But I'm wishing we could try it again Sitting here lonely at a table for two
Watching lovers being lovers in the corner booth
Seems like even cupid don't know what to do
Everybody's got someone but me Yeah, I don't know if I'll ever find another you But everybody's
Got somebody
But me Everybody
Got somebody
Oh everybody everybody everybody but me now Everybody's (everybody)
Got somebody (has got somebody)
Everybody (everybody but me) Everybody's (everybody)
Got somebody (I miss you)
Everybody but me (everybody's go somebody but me)
