Explosive

The Planet Smashers

This is not a problem, this is not a test
Come young people let's protest
Now if you have a problem, get it off your chest
Come Planet Smasher come tell them the rest
I can see it coming
This is not a test
Everyone's set too explosive
Waiting to protestI won't run, won't run, won't run away
Won't run away from here
I won't run, won't run, won't run away
Won't run away from hereToo much, too much violence
Gonna save the world
So much, so much value - gonna save the world
I see the future coming - gonna save the world
I believe that it's worth fighting forMe not go run, no, me not go hide
To much violence put that aside
Cops and youth collide
Day by day arrests
Separated from the issues
And the media can't resist
I won't run, won't run, won't run away
Won't run away from this
I won't run, won't run, won't run away
Won't run away from thisToo much, too much violence
Gonna save the world
So much, so much value - gonna save the world
I see the future coming - gonna save the world
I believe that it's worth fighting forToo much violence too much pressure
All poor people how them a go so far
Where y'all go run, where y'all go hide
When the police and the youth,
Them start to collide
Me not run, me not hide
Too much violence put that aside
Tic tock the bombs soon drop
All nationality let's step on topToo much, too much violence
Gonna save the world
So much, so much value - gonna save the world
I see the future coming - gonna save the world

I believe that it's worth fighting for
Too much, too much violence
Gonna save the world
Too much, too much violence- gonna save the world
So much, so much value - gonna save the world
I see the future coming - gonna save the world
I believe that it's worth fighting for
