# Way Back Then

## John Prine

Night is falling
We're doing the things we do
You are acting just like me
I'm acting just like youDo you remember
When you were my friend?
That's the way I'd like things
Just like way back thenBaby's sleeping
Brother is on the run
I am out undoing
All the good I've doneIf you loved me
Tell you what I would do
Wrap the world in silver foil
Bring it home to youLately, I feel
That I can't pretend
I may never ever see
The likes of you againI take a walk, I come back home
Then I sit a spell
Watch the ponies dance around
The empty wishing wellNight has fallen
I've said the things I did
The only baby sleeping
Is when I was a kidDo you remember
When you were my friend?
That's the way I'd like things
Just like way back then
