I Get It

Blue Sky Riders

How to find, how to know, how to keep
I get it
Loves a matter of luck, yes indeed
I get itThey say the true romance is just a game of chance
Reacts not better than a ... world
I get it
Everything you say its true
I get it
But they were never loved by you
I get to be the one who gets to kiss you every morning
Guess I got lucky now
Out to everyone that wants your love
I get itPeople say you should take what you get
I get it
And so you settle for a little bit less
I get it
So let em ramble on
Weve already prove them wrong
When loves ...happiness was well out of reach
I get it
Everything you say its true
I get it
But they were never loved by you
I get to be the one who gets to kiss you every morning
Guess I got lucky now
Out to everyone that wants your love
I get itI get your smile every evening
I get your arms every night
And Ill take any kind of reason
To get, to get to hold you tight
Youre everything I want, everything I need
And everything I ever thought that love was sposed to be
I get it
I get to be the one who gets to kiss you every morning
Guess I got lucky now
Out to everyone that wants your love
I get it, I get it, I get it
I, I, I get it, I get it, oho.
