

Spit You Out

METZ

Keep looking
Keep looking for a broken grace
It seems like you're always there, alone
Why can't you just take me?
Give me a ???
You said you'll come to me
No time for can and waitTime to spit it out!
Spit you out!Black cigar of a surgeon on the second floor
They've all been here before
You came
I'm shouting out names
Like a broken crown
Of what they rule not know
You never knew the soundSmiling out, open wide
Turn around
Spit you out
Spit you out
Spit you out
