How Long

Bryan White

You say you need someone to love
But when will you learn
Whatever's done in this world
Is still gonna turnOh, down comes the night, just another forever
How long
How long till you see that we're in this together
How long, how longIf you weren't so far away
So far from here
I'd make your tears go away
And make you see clearOh, you'd see a night when two hearts would surrender
How long
I don't want you to be the one I remember
How long, how longThough time goes by in the blink of an eye
It's passed over you
There's no time to hide, won't you stand by my side
I'm asking you, ohOh, down comes the night, just another forever
How long
How long till you see that we're in this together
How long, how longYou say you need someone to love
But when will you learnYou say you need someone to love
