

# Better Luck

## Scissor Sisters

I know i'm into you  
I don't know what to do  
When we talk  
I feel like i've died twice  
Boxers use their fist  
Hockey players break their wrist  
You break my heart  
When you try to play nice Like a detective without a case  
I'll magnify what you say and  
Test the implications  
It could be you  
Or it could be through  
Before it even begins  
I'm a fish swimming without fins Better luck next time  
Maybe we could have a go  
With another kind of love  
One that carries on  
Better luck next time  
Guess i've only one regret  
That i didn't get to know you better than i did You tell me that your mine  
Are you just being kind?  
Let's not stretch our imagination  
When you look in my eyes  
Always get them butterflies  
My knees get weak with anticipation And if i might have a slip of the tongue  
Will the fun dissapear?  
Is the binding coming undone?  
You leave me waiting within your grasp  
But i an't tell what you feel  
And i'm too afraid to ask you Better luck next time  
Matbe we could have a go  
With another kind of love  
One that carries on  
Better luck next time  
Guess i've only one regret  
That i didn't get to know you better than i did
